Dedication

MR. JOHN C. COLLINS

Because he has proven himself to be a teacher whose abilities and character are above reproach, the Class of 1960 takes utmost pleasure in dedicating this Yearbook to Mr. John C. Collins, our Senior High School Citizenship Education teacher. As a class and individually, we feel fortunate in having had the opportunity of studying under his tutelage; and it is with a feeling of great loss that we must withdraw from his influence and genuine guidance. Nevertheless, the principles he advocated--his technique of explaining the background of historical events and his ability to make us each think and read with complete comprehension--will always be remembered and appreciated.

1960--a new decade and you are members of the first '60 Class. What an important step. Are you ready to meet the challenges of the 60's? If we can read the signs, progress in all phases of our life will make big strides forward. It is my hope that you have now received the basic foundation of education on which to build your life. Add to it in every way possible to make your contribution worth-while. Do not lead a useless existence. Stand straight, look forward and proceed as best you can. Good luck.

Robert N. Bennett

Supervising Principal

You have been laying the educational foundation for your future for the last thirteen years. The quality of this preparation will become apparent throughout your future vocational and avocational experiences. It is the hope of the faculty and myself that you have assessed the importance of this educational phase of your training and have achieved to your satisfaction and for the general improvement of civilized mankind.
