MR. ROBERT FORD

*dec'd*

"A man who works with his hands is a laborer; a man who works with his hands and his brain is a craftsman; but a man who works with his hands and his brain and his heart is an artist."

Louis Nizer

Mr. Ford is an artist gifted in expressing himself with oils, water colors, or simply a stub of charcoal. But his heart reaches far beyond this. He shares his feelings, his knowledge, and his love of art with his students, giving them a greater appreciation of the world about them and a realization of their own talents.

His friendliness brightens the halls, and we've learned to expect his cheerful "Hi there!". And who could be more helpful and understanding when we invade his room to work on posters or decorations for a dance, often leaving him with depleted shelves and a large clean-up job!

He has contributed much to our high school years, and it is with this in mind that we, the Class of 1968, dedicate our yearbook to Mr. Robert Ford, a true friend.

## Work Training Group

John Craft is showing the boys knot tying. It was John's service project for his Eagle Scout award.

Giving \$243.00 to Nora Wilson Harrison for the A.R.C. It was raised from the sale of tulip bulbs.

As we leave and sort our things  
and our thoughts, we find among  
the books and the papers---people  
we'll never forget.

Jeff Bell will be remembered  
for his sincere participation in  
activities in church, scouts, and  
in school.

## G.C.S. Student Council

Among its various activities, the Greene Central Student Council tries to fulfill its basic purpose--to improve communications between the student body and the administration.

Other activities include aiding distribution of the Rotary Christmas baskets, the annual March of Dimes, the individual picture sales, and the activities schedule.

An exchange student, Guy Schoonheere, from Comines, France, is being sponsored by the Student Council. One of our biggest projects, planned for this year, will be sending a Greene student to France. An International Week will stress the importance of these student exchanges.

THE GLIMMERS OF  
REMEMBRANCE

## Resource Center

The Resource Center, under the direction of Mrs. Hoag, is another innovation this year. Here students develop further skills in using reference materials. Though primarily geared to senior high school, the room is enjoyed and used by all levels.

Publications, tapes, records, and other audio-visual equipment "make history and the current world come alive" and help make an understanding of our fellowmen possible.

A new approach to the essentials of English was initiated this year in the Communications Skills Center under the direction of Mr. Bartz.

Forty-eight students take part in individual programs that include reading, writing, listening, and speaking. Each student proceeds at his own level and speed with considerable self-direction, and the aid of such devices as tape recorders, record players, workbooks, and reading materials.

All work is accomplished in class with the assistance of the teacher and the teacher's aid.

General Aviation courses in high school are a fast growing trend in the United States. But none of the other schools have the uniqueness of Greene Central. Greene not only has an aviation course but also has the only Link GAT general aviation trainer in the United States.

Among areas covered in the course are history of aviation, physics, mathematics, science and communications. The student learns flight procedures, federal regulations, and investigates available careers in aviation.

In a world where absolutes are hard to find  
And extremists run the span of human emotions,  
It is our task to find the point of balance;

Youth —  
the MEANS  
in a  
World of EXTREMES
