The Greene Central School Class of 1996 has become the people we are today through the efforts of many people. Our earliest days were totally wrapped up with our parents, and they continue to be an ongoing influence in our lives. We passed through baby sitters and nursery school teachers, and one bright day we went to Kindergarten and we started the often frightening journey of our education. Our teachers — at every grade level — shared far more than just reading, writing and arithmetic; they taught us to set goals in our lives and they taught us the discipline to work toward those goals — both as individuals and as part of a group. One day we got old enough to join sports teams and other school groups. Now coaches and advisors taught us to develop our abilities and to respect the achievements of others, we learned to achieve greater goals by working together.

When we reached High School, we had learned a lot about how to learn. We took notes and did homework, we reviewed and prepared for tests, sometimes we even got an assignment done before the last minute! And just when we thought that we had teachers all figured out, they added a new dimension to our learning. They lectured and gave assignments, but they started to give us more as well. They began to show us how to question who we were and how we would fit into our world in a special way.

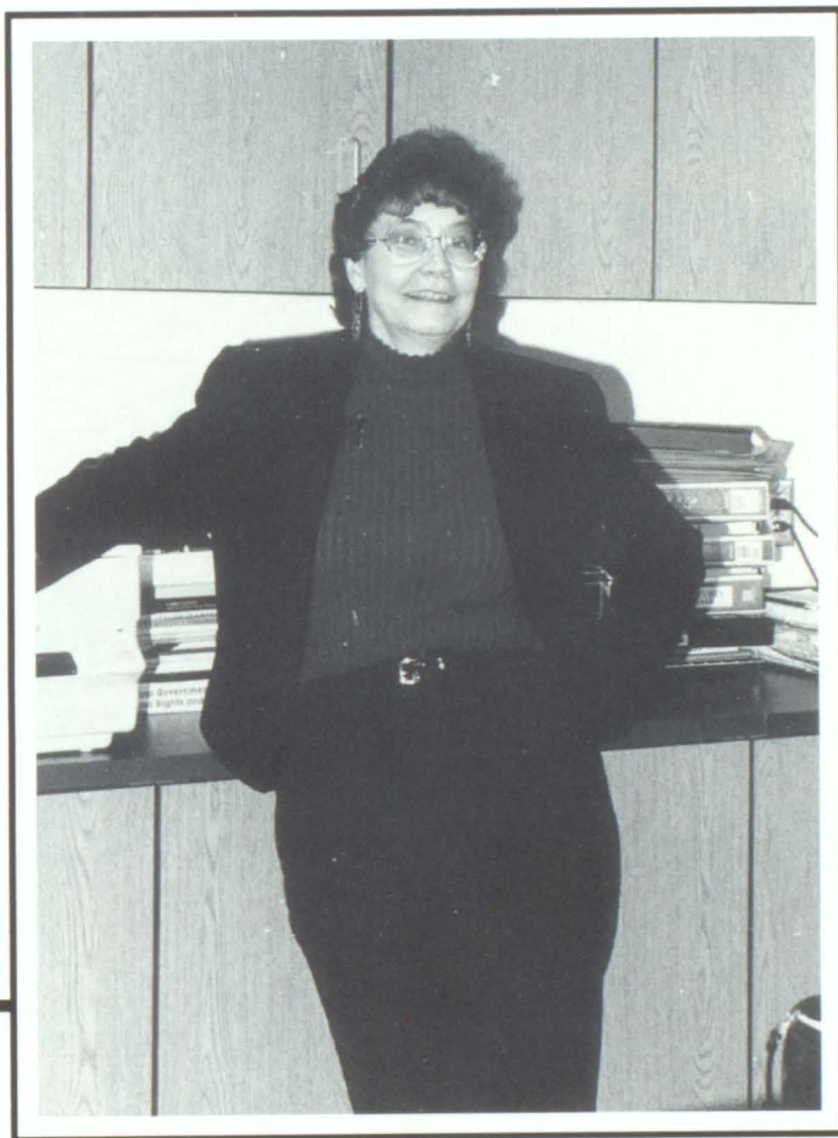

They helped us to locate those special talents and abilities which make us — US. While Algebra and the Periodic Tables, 'Gudgrammar' and Art Projects may give us the tools to work with in our lives, it is the Social Sciences which have opened up new vistas for us, which have given us our own unique way of looking at the world. So today, while we are grateful for all that has been taught to us by all of our teachers, we want to thank two people for making us aware of our place in the world. While their topics and teaching styles may be very different, they each have the ability to touch our lives and to make us better prepared to leave Greene Central School. We respect who they are, we admire what they do, and we are grateful for what they have shared with us. We dedicate this 1996 Greenelite to Miss Mary Martin and Mr. Mark Granan.

Hello, I'm Miki Ichioka, I live in Sasebo Nagasaki Japan. I have had a wonderful time in Greene. I have made so many nice friends at school and in my two host families. All of these people have given me so many special memories. I want to say Thanks to the Greene Rotary Club, to the Garbett and Price families, to all of my teachers, and to all of my classmates at Greene Central School. I have very special memories from my Ski Club pals, DMV members, after school friends, and "Wonderful Town" cast members. To Chris, a special Thank You . . . I was very lucky to meet you and share this year with you. All of you will be my friends and memories forever. — Miki

Hey Guys, soon I'll go back to Denmark. I have had a great time here in Greene and have enjoyed going to GCS. Thank you to all my teachers who have helped to make my classes enjoyable and easy. A special thanks to the Greene Rotary Club and to my host families (the Guiles and the Kurz's) who have made it possible for me to be in Greene this year. I want to thank GCS for giving me the chance to participate in Soccer and Tennis and to enjoy being in the Ski Club. Thank you to all the new friends I have met in Greene — you have made me feel like one of you, I am really thankful for that. I'm going to miss you all, I will take your memories with me. And last, I want to Thank Miki — I have enjoyed sharing this year with you so very much. I will never forget any of you and all of the things I have learned from you this year. — Chris
