From a little acorn to a mighty oak tree I have watched you grow physically, mentally and emotionally into a fine young man. As you leave one journey behind and start your next adventure, I hope your dreams take you... to the corners of your smiles, to the highest of your hopes, to the windows of your opportunities, and to the most special places your heart has ever known. Congratulations Graduate!

I love you,
MOM

Dakota Warren

Our Beautiful Son

When you were a baby, we cuddled you in
our arms
And smothered your sweet face with
kisses.
We vowed we would never let go.

When you were a child, we pushed you to
study hard
And learn all the good things
From the world around you.

When you were a young man, we
encouraged you
To follow your dreams
And be passionate about your choices.

And then we did the hardest thing we've
ever had to do...
That which we vowed we would never do:
We let go.

Dakota, although we miss that sweet little
boy, we are so very proud of the man
you've become. Keep being yourself and
do the best you can in everything you do.
Morrisville won't know what hit them!
Remember, we're always here when you
need us. Life gives us such wondrous
gifts, it gave us you. Oh, and we lied,
we're never letting go!

With love and much pride,
Mom & Dad

Ryan Connelly

Ryan, we are so proud of you and all you have accomplished. It feels like only yesterday, you were starting your first day of kindergarten. It was the year after your oldest brother graduated from high school. You have certainly kept us busy with all your school activities. We have especially enjoyed going to all your sporting events and watching you "play like a champion". You should live like the champion you are. You are a fine example of good sportsmanship and a team player at all times.

Those who know you have appreciated your quick wit and terrific personality. You certainly have become an independent, kind, sensitive and compassionate young man willing to do whatever is needed to achieve your goals - and to help others achieve theirs. Never change. Always be your own person and follow your dreams. Keep looking for the rainbows.

Most importantly, never forget that your entire family is very proud of you and will always be there for you. Ryan you are a great gift to us all.

May God continue to bless you!

It's hard to believe so many years can go by so quickly. It's been so much fun; we could do it all again and even more.

Now, you complete this chapter to embark on the next. There will be many new challenges ahead; some fun... some disappointing,

but always remember to keep your faith and that we're all here for you, always. We hope you never have to settle for anything less

than what you desire.

"My Wish"

I hope the days come easy and the moments pass slow
And each road leads you where you want to go
And if you're faced with the choice and you have to choose
I hope you choose the one that means the most to you

And if one door opens to another door closed
I hope you keep on walkin' til you find the window
If it's cold outside, show the world the warmth of your smile
But more than anything, more than anything

My wish for you
Is that this life becomes all that you want it to
Your dreams stay big, your worries stay small
You never need to carry more than you can hold

And while you're out there gettin' where you're gettin' to
I hope you know somebody loves you
And wants the same things too
Yeah, this is my wish

I hope you never look back but you never forget
All the ones who love you and the place you left
I hope you always forgive and you never regret
And you help somebody every chance you get

Oh, you'd find God's grace in every mistake
And always give more than you take
But more than anything, yeah more than anything

My wish for you
Is that this life becomes all that you want it to
Your dreams stay big, your worries stay small
You never need to carry more than you can hold

And while you're out there gettin' where you're gettin' to
I hope you know somebody loves you
And wants the same things too
Yeah, this is my wish, yeah yeah

My wish for you
Is that this life becomes all that you want it to
Your dreams stay big, your worries stay small
You never need to carry more than you can hold

And while you're out there gettin' where you're gettin' to
I hope you know somebody loves you
And wants the same things too
Yeah, this is my wish
(My wish for you)

This is my wish
(My wish for you)
I hope you know somebody loves you
(My wish for you)
May all your dreams stay big
(My wish for you)

SLIPPERY SLOPE
 Nearly 16 million Americans lost their jobs in the wake of the recession. The increased wave of lay-offs put the national unemployment rate at 10.2%, the highest in over 26 years. Although the economy began to rebound from the worst recession in 70 years, employers continued to be wary.

The Statue of Liberty can have up to 15,000 visitors per day.

CLUNKERS MAKE SOME NOISE
 For nearly a month in the summer of 2009 America was consumed by CARS (Car Allowance Rebate System), commonly known as Cash for Clunkers. The government program was designed to encourage drivers to trade-in old gas-guzzlers in favor of new, fuel-efficient vehicles. With an incentive of up to \$4,500, the program was wildly successful and nearly 700,000 cars were traded in.

A MUSIC ICON REMEMBERED

Legendary performer Michael Jackson passed away suddenly at the age of 50. As news spread of his death, the internet suffered a significant slowdown as people worldwide conducted simultaneous searches. Jackson was also nominated for five American Music Awards in 2009, including Artist of the Year, after his music saw a tremendous surge in sales and airplay. As a final tribute, Sony Pictures released *This Is It*. The never-before-seen footage of Jackson rehearsing for his final 50 shows was a massive success, making millions.

BALLOON HOAX

Millions watched as a large metallic balloon, said to be carrying a 6 year old boy, soared through the air in Colorado. When it landed and "balloon boy" Falcon Heene was not inside, the world was relieved to learn he had been hiding in the attic the entire time. Three days later, after a telling interview, the whole spectacle was deemed a hoax in the parents' pursuit of fame and fortune. The parents pled guilty to criminal charges and received jail time.

LIBERTY REOPENS

On July 4th one of the nation's most recognizable symbols of freedom, the Statue of Liberty, reopened its crown to visitors. After the September 11th attacks, the monument was closed to all visitors until 2004 when the base and lower observation decks were reopened. Guests will be allowed to make the 168-stair climb to the top for the next two years, when the crown will close again for safety work.

NUCLEAR TEST

North Korea conducted a series of rocket and missile tests, including an underground nuclear bomb test in an attempt to lure the U.S. into talks to loosen sanctions. The international community was outraged, stating that the test was in clear violation of international law. In 2008, North Korea agreed to suspend its nuclear testing in exchange for economic stimulus, but the deal fell through after it removed inspectors from the country.

ALL A BUZZ

Kavya Shivashankar, a 13 year old from Kansas, won the Scripps National Spelling Bee. A four-time competitor and aspiring neurosurgeon, Kavya won the trophy and more than \$40,000 in cash and prizes with her correct spelling of "Laodicean"—meaning lukewarm or indifferent in religion or politics.

CATASTROPHIC QUAKES

The island nation of Haiti was struck by a devastating 7.0 magnitude earthquake so strong it could be felt nearly 200 miles away. The flattened capital city left millions seeking shelter and medical attention and Haitian government officials estimated over 111,000 people lost their lives. Humanitarian organizations such as the Red Cross set up aid and relief efforts while streamlining donations by allowing individuals to text message pledges. Within days, over \$355 million in donations had been raised through the combined efforts of companies, charities and individuals.

OPRAH MOVES ON

Popular syndicated talk show host and business tycoon, Oprah Winfrey, announced she would end *The Oprah Winfrey Show* in late summer 2011. The news came as a shock to fans that have elevated her status to nothing short of an icon since the show's inception in 1986. Early speculation indicated she may start a new show on her own Oprah Winfrey Network in 2011. Her show currently draws about 7 million viewers a day.

FORT HOOD TRAGEDY

On November 5, 2009, Fort Hood, America's largest military base, transformed from a place where soldiers prepare for war to an actual battlefield. Major Nidal Malik Hasan, a licensed military psychiatrist, opened fire in the processing center where soldiers report before deployment. Twelve soldiers and one civilian lost their lives, while 30 others were injured, including Hasan. In the past, Hasan had been openly critical about the war on terror.

IRANIAN ELECTION PROTESTS

Iran's presidential election drew international attention when disputes over the winner sparked two weeks of protests. Reformist activists claimed Mahmoud Ahmadinejad's landslide win was a fraudulent mishandling of the ballots. The protests resulted in 20 fatalities, numerous arrests and trials for nearly 100 demonstrators facing charges such as attacking government property, violence toward security forces and creating panic in public.

H1N1 FLU OUTBREAK

In the spring of 2009, H1N1 emerged with the first reported cases in Mexico. The virus reached the United States in April and officials worried the flu would spread rapidly, causing a global pandemic and fear that the unpredictable flu virus could mutate into a more dangerous strain. In the fall, President Obama declared a national emergency, enabling the government to provide more aid to the states. In the U.S. alone, millions of people were infected and thousands lost their lives. When a vaccine became available in the fall, thousands flooded phone lines and clinics around the country, as the demand greatly outnumbered the first supply.

TOYOTA TROUBLES

Automobile giant, Toyota, recalled eight of its models after learning of a problem with its acceleration mechanisms that caused some gas pedals to stick and vehicles to accelerate without warning. Though the company said the problem is "rare and infrequent" it decided to recall about 4.2 million vehicles worldwide and brought U.S. sales and production to a halt. The company tried to remedy the situation and ease the nerves of uncertain drivers by sending new parts to dealers to fix the faulty pedals.

HEALTH CARE HURDLES

In groundbreaking sessions of Congress, both the House and Senate passed bills for health care reform after months of debate. The next step was to merge the nearly \$1 trillion proposed plans for a final vote. If passed, the bill would become the largest federal health care expansion in forty years since the introduction of Medicare and Medicaid. The goal of the bill is to bring extended insurance coverage to an additional 30 million Americans.

SURPRISE PRIZE

A surprise to many, the Norwegian Nobel Committee honored President Barack Obama with the 2009 Nobel Peace Prize, just eight months into his tenure. The committee explained it was Obama's "extraordinary efforts to strengthen international diplomacy and cooperation between peoples" that brought his name to the top of the nominees list. Upon learning the news, the president remarked that he was humbled by the decision.

ARES BLASTS OFF

Forty years after putting the first men on the moon, NASA is once again elevating its space program with the new Ares 1-X Rocket. The streamline rocket's simpler design is cheaper and up to 10 times safer than its shuttle predecessors. Despite a successful first test in late October, officials say that the 1-X may not carry astronauts until 2017.

FALL OF THE WALL REMEMBERED

Twenty years ago the Berlin Wall fell, marking the end of the Cold War and the divide between East and West Germany. To celebrate the anniversary, thousands of German citizens celebrated as 1,000 towers, all 8 feet tall, were toppled to symbolize the destruction of the dividing wall. The celebration was overseen by current German Chancellor Angela Merkel and former Russian leader Mikhail Gorbachev, who many hold responsible for reforming the former Soviet Union.

FRIGHTENING FLIGHT

On Christmas Day 2009, a Nigerian man attempted to blow up a flight carrying nearly 300 passengers from Amsterdam to Detroit, Michigan. Umar Farouk Abdulmutallab had a bomb sewn into his undergarments and tried unsuccessfully to detonate the devices as the plane made its final descent. Stringent security precautions were put into effect and President Obama ordered a thorough review of safety regulations. Al Qaeda later claimed responsibility for the terrorist act.

LINKING LANGUAGES

Historically, URLs have been constructed with Latin based characters like 1, 2, 3 and A, B, C. Now, after approval by the International Corporation for Assigned Names and Numbers (ICANN), domain names will appear with other characters from Arabic and Chinese languages. The chairman of ICANN, Peter Dengate Thrush said, "The coming introduction of non-Latin characters represents the biggest technical change to the internet since it was created four decades ago."

ON SHAKY GROUND

The South American country of Chile was the target of an 8.8-magnitude earthquake that destroyed many villages in its path. The next day the same south-central region of the country was struck again by a tsunami that created waves over 18 feet high. Approximately 800 people lost their lives and the destruction between the two natural disasters brought widespread shortages in food.

HOUSE PARTY CRASHED

Virginia couple Tareq and Michaela Salah, crashed the first state dinner held by the Obama's. Passing two security check-points, the couple mingled with Vice President Joe Biden and Chief of Staff Rahm Emanuel before exiting two hours later. Just seven months after giving O'Brien *The Tonight Show*, NBC reversed course, returning Leno to his former seat. As part of the deal, NBC agreed to pay Conan \$33 million, with \$12 million going to his staff in severance. O'Brien hosted his last show on January 22nd, while Leno returned to *The Tonight Show* on March 1st.

DANGERS OF FAST FOOD

For two years, John Manley, a 50-year-old North Carolina man, complained of severe coughing, pneumonia, and vomiting. AERODYNAMIC SEEDS

"Helicopter seeds," the seeds from maple trees, have provided hours of fun for children but researchers were stumped as to what made the seeds hover. A team of Dutch and American scientists discovered the answer. When a maple seed swirls, a tornado-like vortex lowers the air pressure around the seed, sucking the wings upward to oppose gravity—insects, bats, and hummingbirds employ the same technique.

IN HOT WATER

Ocean temperatures around the world measured 1 degree higher than normal between June and August, averaging 62.5°F, according to the National Oceanic and Atmospheric Administration. August saw the warmest temps on record since 1880, when record keeping began. Though climate change is listed as a factor, meteorologists say the warming is also due in part to a natural El Niño system. Ocean heat puts coral reefs in harm's way and also contributes to melting Arctic sea ice and hurricane strength.

A FARMER'S FRIEND

Even plants have joined in the text-messaging craze. Through SmartCrop™ infrared thermometers planted in soil, plants can "tell" farmers when they are hot or thirsty. Most crops have an ideal temperature for growth and these thermometers allow farmers to be notified by text message if a plant has risen above the ideal temp.

GROWTH SPURT

The Bristlecone pine is the world's longest-lived tree, sustaining ages up to 4,800 years. Recently, researchers found that these ancient trees are growing at a much faster rate than ever before as evident by its widening rings. The growth is presumably due to the increase in temperature in their high-altitude climate over the past 50 years.

SOLAR ENERGY MAKEOVER

Developers have found two ways to make solar power panels more appealing to the average homeowner. First, underground panels use fiber optic cables to capture and distribute sun energy, instead of heavy panels. The second option is to incorporate shingle-like solar panels that have a thin copper film covering to absorb light energy into the roof. The Powerhouse™ Solar Shingle is expected to be less expensive and easier to install than full-size panels.

POO POWER PAYOFF

In response to rising energy costs year-after-year, Shawn Saylor turned to an unlikely renewable source to power his family's dairy farm. Using the manure from 600 cows, Saylor used a process known as anaerobic digestion to generate energy. Saylor explained that this method produces a savings of about \$200,000 per year with the ability to sell left over energy back to the power company.

TINY T-REX

History's fearsome Tyrannosaurus Rex may have had miniature ancestors. A newly discovered ancient creature known as "Raptorex" closely resembles its massive relative, at only a fraction of the size. Experts report it may have weighed only 150 pounds compared to T-Rex's 13,000 pounds. Raptorex would have existed 60 million years before T-Rex, and despite its size, would have touted an extremely powerful bite.

LET'S GO FLY A KITE

Scientists from the University of California and the Carnegie Institution have discovered a way to create sustainable energy—through kites. High-altitude winds contain a vast amount of energy. By releasing kite-like wind turbines miles above the planet and tethering them to the ground, researchers believe they could create enough energy to supply electricity worldwide.

COOLING SUN

Scientists have discovered that the sun is at its dimmest in over 100 years. Typically, the sun undergoes 11-year cycles, culminating in the expulsion of solar flares and planet-sized debris. After 2008 the sun was expected to become increasingly hotter, but instead it was at a 50-year low for solar pressure and a 100-year low for sunspot activity. Although dimming of the sun has resulted in decreased temperatures in the past, the onset of global warming has likely counteracted this phenomenon.

COLOSSAL SEA MONSTER

The fossilized skull of an ancient sea monster called a pliosaur was discovered along the Jurassic Coast of England. The skull—dating back 150 million years—measured nearly eight feet. Scientists believe the creature's full size was up to 52 feet long, making it the biggest pliosaur ever found. The dangerous sea predator could have eaten a T-Rex for breakfast!

CARBON CAPTURE

Professor Klaus Lackner of Columbia University has created a "synthetic tree" able to capture destructive carbon dioxide 1,000 times better than real trees. H₂O ON THE MOON

For the first time, water was discovered on the moon's surface. NASA announced its significant find after reviewing data from an intentional satellite crash it conducted in search of water. The data also revealed there were more than just droplets but rather "a dozen, two-gallon bucketfuls." Experts said the discovery will open the door to other space exploration opportunities, including the potential for a sustainable lunar space station.

SUPER NATURAL GLUE

The asparagus beetle attaches its eggs using what is said to be some of the strongest natural glue in the world. A study discovered the almost invisible eggs require a pull-off force of "8,650 times higher than the egg weight." AUTISM BRAIN DISCOVERY

To learn more about the causes of autism, researchers conducted a study of MRI brain scans of 50 toddlers. Preliminary findings showed that on average, an area in the brain called the amygdala is 13% larger in young children with autism. It is believed that these children are born with normal-sized brains but later in the first year the area begins to grow larger. Autism is a developmental condition affecting as many as 1 in 150 children.

MIGHTY MICE

In a scientific breakthrough, two labs in China bred the first induced pluripotent stem cell (iPS) mice, meaning they were the first of their kind developed from adult stem cells, instead of the more controversial embryonic cells. Scientists reprogrammed the cells back to an embryonic state where they could again develop into actual mice. This discovery is strong evidence that iPS cells have the potential to be used for treating disease.

THE NEW FACE OF HOLLYWOOD

Legendary filmmaker James Cameron reshaped the movie industry by helping develop the advanced camera technology used in his blockbuster hit *Avatar*. Cameron helped pioneer a lightweight, two-lens camera that can shoot dynamic live action footage in 3-D and a head-rig camera that accurately records facial expressions. The result is a stunningly realistic, digitally created movie that captures even the most obscure details on an actor's face. The computer generated characters, like those on *Avatar*'s fictional planet of Pandora, appear more realistic than ever before.

DIRTY WORK

A DustCart robot, reminiscent of Disney's *WALL-E*, recently took to the streets of Italy. The robot, which will be tested in cities around the world, responds to residents who place their trash and recyclables on the curb and call for pick up. It fills up its belly with unwanted waste, much the same as the traditional dump truck. Though not as efficient as a fleet of trucks, the DustCart monitors air pollutants and is much quieter, running on lithium ion batteries.
