Catherine Reichert

I, Catherine Reichert, leave: There are the few people that are close to me, like a sister that have been there with me through everything and even through the biggest of rough patches we made it out as if we never had any scratches - I'm thankful for those people. They helped me to realize that family isn't by blood it's by heart. My blood family isn't good at showing support, but when they do they go big or go home - you'll see that at graduation. My family doesn't always get along but we always manage to come together when we need each other, and like a lighthouse to those lost ships we send out waves of light to each other and lift each other when we most need it.
