Juliana Myers spends a year in...

Belgium

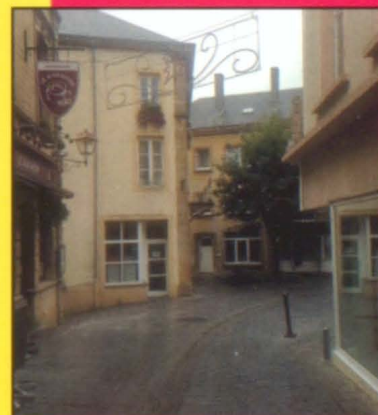

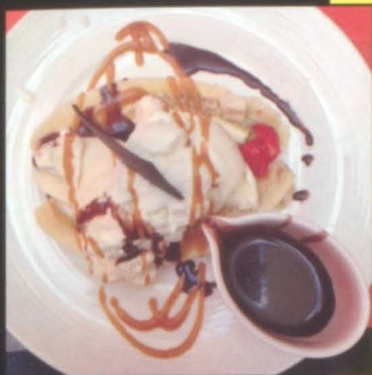

On August 19th, Juliana Myers left her hometown of Greene, NY and traveled to Virton, Belgium where she would spend an entire year as a Foreign Exchange Student. The Rotary Youth Exchange program provided Juliana an opportunity of a lifetime. This is what Juliana had to say about her experience...

"Being an exchange student is something that is difficult, emotional, beautiful, and shocking. I chose to leave my home and culture behind to experience something completely new. When I first arrived in Belgium, I was awed by the beauty and eccentricity by all of the little towns and the big cities. So far I have traveled and visited France, Germany, Spain, Luxembourg, and the Netherlands. In addition to traveling to these countries, I have had to dive into a different culture which includes the language, food, and the *bisous*! The best way to learn a language is to completely immerse oneself in the language, that is to say, read, listen, and speak in the language. As for the food, Belgium is known for its fries, waffles, and chocolate; all of which are delicious but the chocolate is by far the best that I have ever had. Last, but not least are the bisous, bisous in French means, "kisses." In the Belgian culture you greet and goodbye with one bisou on the left cheek. Everyone does this and if you don't it means you are sick or being rude.

A hard part of being an exchange student is that you feel completely isolated sometimes. You will have friends and family as an exchange student, but they are people that you have recently met. So, it's hard to have a deep connection with them and feel totally comfortable around them. In addition, the language is a very difficult obstacle. For me, it was very frustrating at first because people would talk to me and make jokes, but I wouldn't completely understand. The teacher will talk and write on the board, but you don't clearly understand what's happening. At the beginning it's difficult to make friends because you don't know how to start a conversation and easily carry on a conversation.

Overall, I am already extremely attached to this wonderful country and I can't picture myself leaving it at the end of the school year. This exchange student experience has changed my life and allowed me to open my eyes to different cultures and a completely different world. The opportunity to travel abroad is one of the most beneficial actions you can do to discover who you really are and appreciate the little things in life whether they be in the United States or the country you choose to travel to."

White Face Day

Every 53 minutes someone in America is killed by an impaired driver. Every two minutes, someone is injured because of this entirely preventable crime. "White Face Day" is a way to draw attention to this and help students make safe and smart decisions during their life.

Greene Day

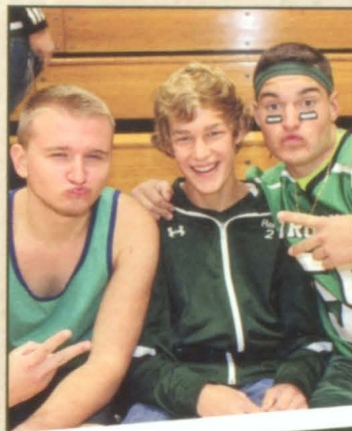

Every month students participate in activities to help build student body morale. During this year's Greene Day Kick-Off, students could participate in designing their class banner, creating a football banner, rehearsing a skit for the pep-assembly, competing in team trivia, playing bingo or playing class pillow polo.
